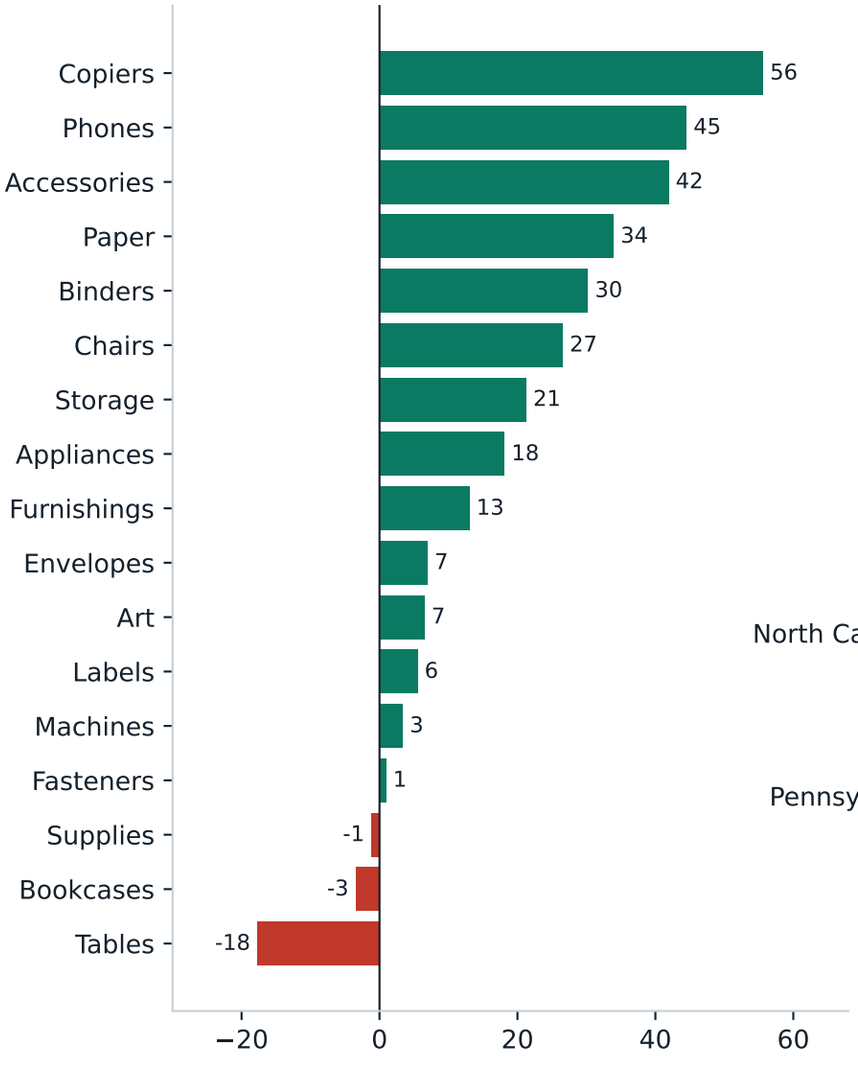
Retail Sales and Profit Dashboard

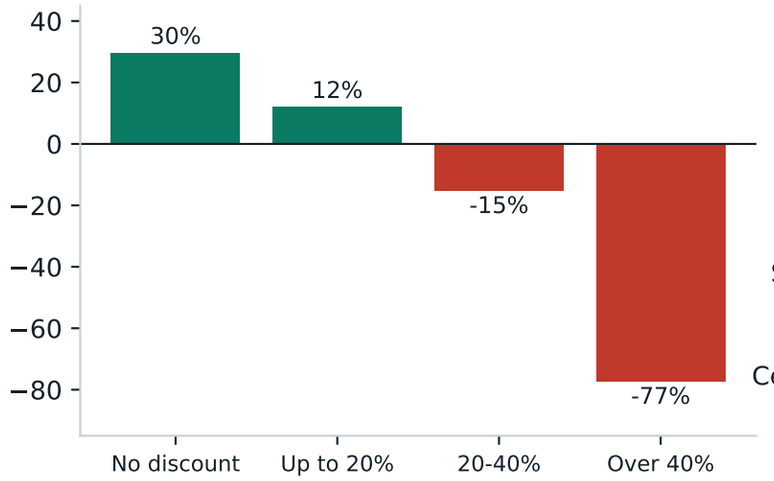
Sample Superstore dataset | Prepared by Linet Toppo

Total Sales	Total Profit	Profit Margin	Order lines
$2.30M	$286K	12.5%	9,977

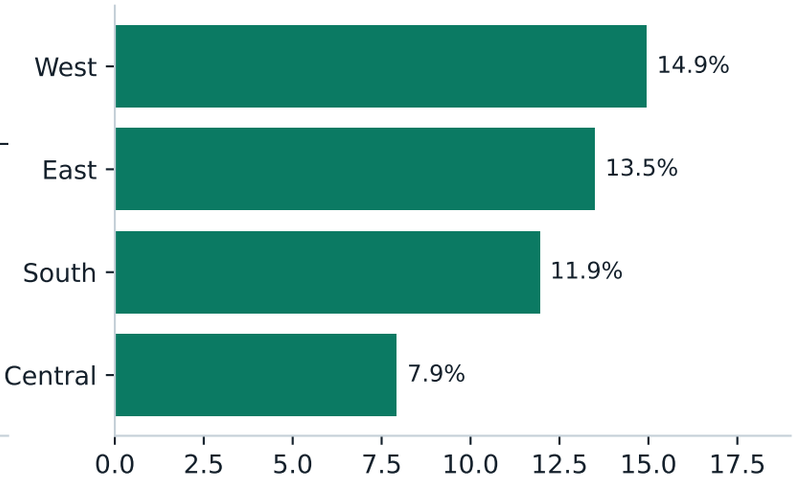
Profit by sub-category ($K)



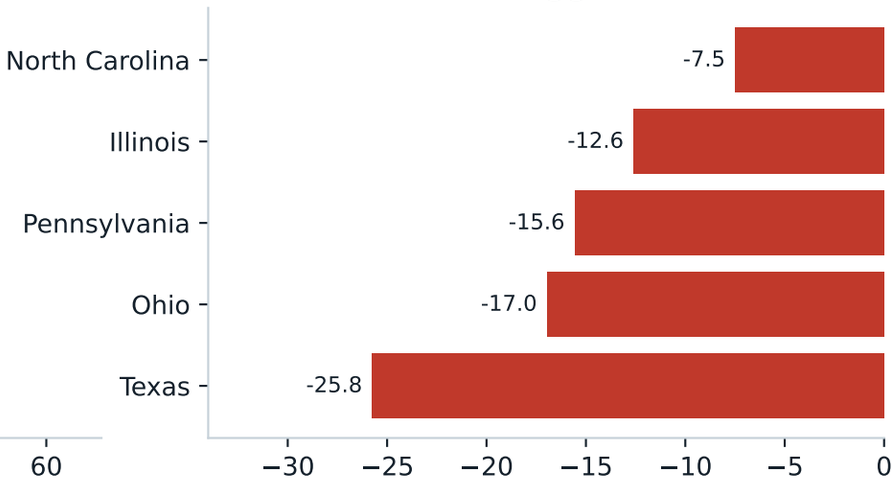
Profit margin by discount level (%)



Profit margin by region (%)



5 states with the biggest losses ($K)



Key findings

1. Discounts above 20% lose money: $135K lost on those lines vs $422K earned at 20% or less.

2. Tables, Bookcases and Supplies are the only sub-categories with a negative total profit.

3. Central has the lowest margin (7.9%); Furniture earns just 2.5% against 17% elsewhere.
